Leetcode

GeeksforGeeks

## SUMMARY

- Seeking full stack internship with expertise in HTML, CSS, JavaScript, Node.js, Express.js, and SQL.
- Committed to resolving challenges efficiently with a focus on effective problem-solving.
- Excited to be part of a team, contributing collaboratively to achieve goals.

## EDUCATION

University Institute of Technology, Burdwan University

B.E - Information Technology - **CGPA - 8.08**

**2021 – Present**  
Burdwan, West Bengal

D.A.V Public School ,Itki Road ,Hehal

Senior School Examination, CBSE (12th) - **Percentage - 77.5**

**2021**  
Ranchi ,Jharkhand

D.A.V Public School ,Itki Road ,Hehal

Secondary School Examination, CBSE(10th) - **Percentage - 86.83**

**2019**  
Ranchi ,Jharkhand

## TECHNICAL SKILLS

**Programming Language:** C, Java, Python , JavaScript, SQL

**Technologies/Frameworks:** HTML5, CSS3, MongoDB, Express, React, NodeJS, Bootstrap, Tailwind CSS

**Developer Tools:** VS Code, IntelliJ, Canva , Figma

**Version Control:** Github

**Database:** MySQL

**Problem Solving:** Data Structures and Algorithms

## COURSEWORK / SKILLS

- DSA
- Operating Systems
- Oops Concepts
- Computer Networks
- Software Engineering
- DBMS

## EXPERIENCE

**Internship: Cloud-Based Full Stack Development with AI & ML Integration using MERN**

- Company: **Ardent Computech Pvt Ltd**
- Duration: 07-05-2024 to 19-06-2024
- Worked on an Online Job Portal project, integrating AI and ML functionalities using the MERN stack.
- Developed and deployed a cloud-based full stack application.
- Collaborated on job matching and recommendation features, enhancing user experience and system performance.

## PROJECTS

**Portfolio** | :HTML, CSS, Javascript

- This is my portfolio, where you can learn about my professional journey, skills, and projects in a creative and engaging way.

**CodePen** | :HTML, CSS, Javascript

- Built a functional code editor using React.js and CodeMirror6 and integrated syntax highlighting and real-time editing features..
- Added support for multiple programming languages and implemented autocomplete suggestions and code linting..
- Incorporated error handling and code formatting tools.

**Weather app** | :HTML, CSS, Javascript

- The app will fetch weather data and display it to the user.
- The interface should be intuitive and visually appealing, with weather information displayed in a clear and organized manner.
- The user will be able to input the location of which they want to know the temperature.

**Math bot** | HTML, CSS, Javascript.

- It is an interactive web application designed to assist users with mathematical calculations and problem-solving.
- It provides a fully functional calculator that supports basic arithmetic operations such as addition, subtraction, multiplication, and division. Users can input expressions via the keyboard for convenience.

## ACHIEVEMENTS

- Mastered over **100+** data structures and algorithms questions on **LeetCode**, showcasing exceptional problem-solving skills.
- Achieved proficiency in solving **100+** challenges on Geeks for Geeks.

## CERTIFICATION

- Learn HTML/CSS - **CodeChef**
- Learn C and Problem Solving 1 - **CodeChef**
- NCC Certificate(A-Level)
- Learn JAVA - **CodeChef**
- Hindustan Olympiad
